DAIRY STATISTICS BY GEOGRAPHIC DIVISIONS

U. S.
Issued by the Dairy Section, Agricultural Adjustment Administration
January 1938

2717

Dairy Statistics by Geographic Divisions

Contents

	Pages
Introduction.....	1
Cattle.....	2-6
Milk.....	7-8
Butter.....	9
Creamery Butter.....	10-12
Cheese.....	13-17
Milk, Evaporated.....	18-20
Milk, Condensed.....	21-26
Total milk equivalent.....	27-29
Dry Milk.....	30-36
Ice Cream.....	37-38
Dried Casein.....	39-40

DAIRY STATISTICS

Numerous requests have been received for statistics relating to the dairy industry by geographic divisions. While most of the data relative to the dairy industry by geographic divisions are available at the present time, it is necessary to develop a comprehensive body of such data by reference to several sources. Therefore, it was deemed desirable to bring together in one paper some of the important dairy statistics, classified by geographic divisions.

All of the figures used herein have been compiled from reports of the Bureau of Agricultural Economics, United States Department of Agriculture. The material is presented in the form of tables showing the actual figures, other tables showing index numbers which represent percentage comparisons of the figures by years to an average of selected years, and by the use of semi-logarithmic charts. From these charts, some idea as to the relative changes in the series by geographic divisions can be gained.

Table 1.- CATTLE: Number of all cattle on farms, by geographic divisions, January 1, 1925-1937

Year	New England	Middle Atlantic	East North Central	West North Central	South Atlantic	East South Central	West South Central	Mountain	Pacific	United States
	Thousands	Thousands	Thousands	Thousands	Thousands	Thousands	Thousands	Thousands	Thousands	Thousands
1925	1,148	3,324	9,721	19,464	4,241	3,777	10,503	7,827	3,368	63,373
1926	1,120	3,229	9,532	18,766	4,010	3,632	9,725	7,304	3,258	60,576

1936	3,704	25,524	467,570	790,930	13,617	44,075	74,786	80,559	128,582	1,629,407

^{1/} Figures beginning with the year 1929 are the most complete since these reports were inaugurated in 1918. Some allowance, therefore, should be made for this when comparing production since 1929 with that of previous years. Since 1930 whey butter (made from whey cream) has been included.

Compiled from reports of the Bureau of Agricultural Economics.
